

CONSTRUCTION STANDARDS NOTICE

Your manufactured home was designed and constructed to strict building code standards required by the U.S. Department of Housing and Urban Development. This federal building code has different requirements for wind resistance, roof loads, and thermal (energy) protection in various sections of the country. Your home:

_____	_____	_____	_____
label number	label number	identification number(s)	
_____	_____	_____	_____
date of construction	wind zone*	thermal zone*	roof load zone*

* If this information is not available for a used home, you will be advised of this fact, and the used home will be disclosed as being constructed to Wind Zone 1, Thermal Zone 1, and Roof Load Zone South.

WIND ZONE - If your home is designed for Wind Zone I, it is not constructed to withstand hurricane force winds which may occur in Wind Zone II or III areas. The following counties in Texas are in Wind Zone II: Aransas, Brazoria, Calhoun, Cameron, Chambers, Galveston, Jefferson, Kenedy, Kleberg, Matagorda, Nueces, Orange, Refugio, San Patricio, and Willacy. All other Texas counties are in Wind Zone I, and there are no Wind Zone III counties in Texas.

THERMAL ZONE - All of Texas is in Thermal (energy) Zone 1 along with the states of Alabama, Florida, Georgia, Louisiana, Mississippi, and South Carolina. The following states are in Thermal Zone 2: Arizona, Arkansas, California, Missouri, Nebraska, New Mexico, North Carolina, Oklahoma, Tennessee, and West Virginia. All other states are in Thermal Zone 3.

ROOF LOAD ZONE - The roof load is calculated in pounds per square foot and all of Texas (and all of the southern states) are in the South Zone which has a minimum of 20 PSF.

RESTRICTIONS - In Texas, no home constructed on or after September 1, 1997, to Wind Zone I standards can be installed in Wind Zone II. All homes constructed prior to September 1, 1997, may be installed in Wind Zone I or Wind Zone II. Other states may have restrictions prohibiting installation or occupancy in Wind Zone II and III areas. There may also be restrictions in other states against installing your home in a thermal or roof load zone for which the home was not designed and constructed.

I (We) have read and understand this Construction Standards Notice and certify that it was given to me (us) prior to the execution of any mutually binding sales agreement or retail installment sales contract.
